*Product Code* CU-P-CUSASMB1011  *DVA Code* AE04 Syn Sol
High Level Pressure Care

Cushions offering superior relief from pain and discomfort with exceptional pressure distribution for the long term user. Please contact us for more pressure care options.

**EQUAPRESSURE CUSHION RANGE**

**EQUAGEL CUSHION**
The EquaGel is a dry-polymer gel cushion with a unique ‘column buckling’ feature that completely transfers pressure points to the surrounding walls for support. The Protector cushion is ideal for most people at risk of pressure ulcers and can be used on chairs and wheelchairs. The Adjustable Protector cushion consists of 3 different firmness layers that can interchange and allows optimization of comfort and tissue protection. Other styles also available.

**Product Code** CU-EP. Protector / AdjProtector

**ROHO CUSHION RANGE**

**HARMONY**
A lightweight and comfortable air floatation cushion with pre-contoured foam base and moisture resistant cover. Particularly suited to users requiring stability, ease of transfer and postural support. Available in various sizes.

**Product Code** CU-SD-Harmony1816C   **DVA Code** AE04 SDHARMONY

**NEXUS SPIRIT**
Combines the stability of a contoured foam base with the therapeutic care of Roho Dry Floatation technology. Designed to allow increased stability for transfers and provide exceptional positioning of the pelvis and lower extremities for enhanced sitting posture. Various sizes available.

**Product Code** CU-SD-NEXUSSPIRIT1816C   **DVA Code** AE04 220442

**CONTOUR SELECT**
Provides skin protection with the stability needed for increased function. The Isoflo Memory Control provides a new level of adjustability that fits, matches and tracks client shape to manage integrity, positioning and stability. The separate neoprene air cells allow air circulation to reach the surface of the skin. It is also lightweight, machine washable and repairable.

**Product Code** CU-P-CS1010C

52 PRESSURE CARE CUSHIONS
QUADTRO SELECT
Sets the standard in the industry for overall performance in wheelchair seating. This low or high profile cushion is divided into 4 compartments, each of which can be set for optimal comfort and support. The Isoflo Memory Control offers shape fitting capabilities while the user is seated for on-demand adjustment to maximise function. Available in an extensive range of sizes.

Product Code CU-P-QS109C  DVA Code AE04 220444

JAY 3 CUSHION RANGE
JAY 3
The industry leading adjustable gel fluid cushion. Lightweight and low maintenance, this cushion is designed for users at high risk of skin breakdown. The pre-contoured foam base and 2” of 3D Jay Flow fluid ensure correct postural stability and comfort. Custom cuts and modifications are available to meet specific client needs. Available in an extensive range of sizes, in high or low profile.

Product Code CU-SM-Jay3_Cush  DVA Code AE04 J3CS1616 (std)

INVACARE FLO-TECH SOLUTION XTRA
FLO-TECH SOLUTION XTRA CUSHION
A highly adaptable gel cushion with a contoured foam base and a large dual gel sac which covers the entire top surface of the cushion. An additional layer of gel is incorporated under the ischial and sacral area to further enhance the pressure-reducing qualities of this cushion, making it suitable for Very High Risk users.

The cushion can be further enhanced with the Flo-Tech Xtra Modular Kit which further promotes active correction and posture management. Velcro pads on the cushion and components ensure the wedges remain fixed in place even after extensive use. All modular components can be customised and are made from high-density CMHR foam.

Product Code CU-MT-MSS FSXB16/18
DVA Code AE04 226103 (base cushion)
AE04 226107 (modular seating)
Custom Backrests

Custom backrests are designed to maximise user comfort and positioning when seated for long periods in electric or manual wheelchairs. The set-up of the backrest is critical in providing the correct posture for the user. Most backrests are available in a large range of sizes and configurations. Additional items including lateral supports and lumber bolsters are available to further enhance the backrest.

SYNERGY SHAPE BACKREST

The Synergy Shape back is ideal for users requiring a lightweight, removable backrest suitable for a manual wheelchair. It has a high-density base foam and soft viscoelastic upper to provide all day comfort. The alloy shell encourages correct seat position.

**Product Code** pp-P-Synergy Shape Back

TRU COMFORT BACKREST

The Tru Comfort seat back offers superior comfort and pressure management, utilising a high-density HR polyurethane base with viscoelastic foam top layer to enhance pressure care, circulation and comfort. The back is highly adjustable and features a contoured design, adjustable lumber support and lateral bolsters to ensure customised correct positioning. Available with manual recline option.

**Product Code** pp-P-Tru Comfort Back

JAY 2 BACKREST

Jay 2 backrests are available in a wide variety of different configurations and sizes to suit almost any user. The hard shell back plate covered in memory foam provides exceptional support for long periods of sitting. Additional wedges are placed between the hard shell back plate and the cushion to customise the backrest perfectly to the users shape.

**Product Code** CU-SM-J2 Back  **DVA Code** AE01 J2516TAT

JAY 3 BACKREST

The Jay 3 backrest is the next generation in the Jay range. It incorporates the latest technology available in seating and positioning. This back offers virtually every combination of depth, height and width that an adult may require. In addition, new mounting hardware make it easier than ever before to attach to almost any back canes. The shape of the Jay 3 backrest has been refined and improved to incorporate better lateral support as a standard feature over other backrests. Additional components are also available.

**Product Code** CU-SM-J3 Back  **DVA Code** Multiple codes, contact us.
