Adjustable Pressure Reducing Chair

Designed to deliver exceptional comfort, configurability, and safety across a wide range of care environments. Built with a robust steel frame and industry-leading adjustability, it is an ideal solution for users requiring pressure seating that can be adjusted to suit diverse needs.

Pressure Injury Prevention

Supportive memory foam and four-way PU stretch fabric assists with immersion and pressure redistribution during extended use

High-SWL Steel Frame: Robust steel frame achieves a Safe Working Load (SWL) of 200kg, making it ideal for heavy-duty and long-term care environments

Optimised Postural Support: Contoured cushioning combined with adjustable head, seat, and back support promotes proper alignment and sustained comfort

Exceptional Adjustability: Fully adjustable seat width, depth, and height to accommodate varied body shapes, sizes, and postural needs

Tool-free Adjustment Points: Ensure quick configuration for multiple users

Integrated Spring-pin Safety System: Prevents over-extension and maintains secure, controlled adjustments

Multi-layered Commercial-grade Foam: Enhances longevity and sitting comfort

Mobility-ready Rear Castors: Helps transport the chair between rooms
